KERALA ACADEMY OF SCIENCES

Thiruvananthapuram

NATIONAL SCIENCE DAY-2023

Kerala Academy of Sciences (KAS) is a premier professional body of Scientists, Technocrats, Medical Professionals, Academicians and Science Managers, established in 1989, with its headquarters in Thiruvananthapuram. The Academy has 13 Honorary Fellows, 68 Fellows and more than 650 Life members. Administration of the Academy is empowered in the Executive Council elected by the general body meeting. The head of the organization is the President, supported by Vice Presidents, General Secretary, Joint Secretaries and Treasurer.

The major objectives of KAS are science popularisation in the State, promotion of scientific temper and to provide an interdisciplinary platform for exchange of ideas among scientists and technologists. Towards fulfilling the goals, the academy organises various programmes including outreach programmes to school students, meetings for the general public and also international seminars on specialised topics, commemorative lectures, endowment programmes and observance of major Science and Technology days, across the State of Kerala, in association with leading R&D institutions and academic institutions.

National Science Day, commemorating the epoch-making discovery of 'Raman Effect' by Dr. C. V. Raman in 1928, is one of the flagship programmes of the academy. This year, the celebration, marking the growth of Science in India, has the theme 'Global Science for Global Wellbeing'. The Academy has observed the National Science Day-2023 in selected colleges across all the districts of the State, by organizing half day seminars on the theme topic. The celebration of NSD-2023 by KAS has been inaugurated by the Chief Secretary of Kerala, Dr. V. P. Joy, followed by Science Day Message by Dr. Anandharamakrishnan, Director, CSIR-NIIST, along with brief talks by eminent scientists on diverse aspects in Science and Technology at Mar Ivanios College, Thiruvananthapuram, on February 24th, 2023. The programmes at 16 colleges had theme presentations by eminent scientists. The Academy extends sincere thanks to all the faculties and students of the colleges who had associated and participated wholeheartedly to the grand success of the programme.
